9:30 AM

Professor Montgomery Keane (Helmsman)

Morning Review

Good morning, team!

I'm Montgomery Keane, your old friend. Time always passes by so quickly, and here we are again, at Friday. Friends, how has this week been for you? Some of you have already planned your weekend, ready to relax, spend time with family, and enjoy the purest moments of happiness in life. But remember, the meaning of life isn't just about investment and work; it's a long marathon, filled with challenges and ups and downs. Don't give up on your dreams just because it feels like they're taking too long to achieve! Time will pass, but dreams remain the same. The key to success lies in whether you're willing to keep moving forward with determination.

NAS COMMUNITY

Rather than letting anxiety fill your mind, it's better to stay grounded and keep pushing forward. Every effort you make is building strength for the future. Those seemingly insignificant persistences will eventually bear fruit one day. Don't let your thoughts become your biggest enemy! Great achievements are never built on impulse, but on day-by-day accumulation and action.

Everyone wants to win, who doesn't? But the real question is, are you truly prepared for success? Are you taking action every single day? Victory doesn't come out of nowhere; only those who are prepared and consistently execute can truly reach the top! Great achievements start with the small things, as the Bible says: "Whatever you do, do it as for the Lord." Every choice, every effort, is a necessary step on the road to success.

This weekend, take some time to seriously reflect on your long-term goals. The path you need to take, your dreams, your future, are all worth your full effort. Don't let the challenges in front of you shake your belief. Trust yourself, trust your potential! Because it's these small, continuous steps forward that will eventually lead to the grand path of success.

NAS COMMUNITY

The non-farm payroll data has just been released. Let's quickly summarize and analyze its impact on the market!

👉 In January, the U.S. added 143,000 jobs, which is below the market expectation of 170,000 and much lower than the revised previous figure of 307,000.

👉 The unemployment rate stood at 4.0%, which was better than the market expectation of 4.1% and the lowest since May of last year.

What does this mean?

📊 For the stock market, this is a double-edged sword. Slower job growth indicates a cooling economy, which could weaken corporate earnings expectations and heighten market uncertainty. On the other hand, the lower-than-expected unemployment rate shows that the job market still has resilience, which may keep the Federal Reserve cautious about cutting rates. If the market tightens its expectations for rate cuts, liquidity could be suppressed, and the stock market may remain under pressure in the short term.

NAS COMMUNITY

💰 For the cryptocurrency market, this could act as a potential catalyst! Economic data falling short of expectations has increased concerns about the traditional financial system. If the Federal Reserve continues to hesitate on rate cuts, institutional funds may seek more flexible and high-growth assets, cryptocurrencies! Bitcoin, quality IEO projects, and blockchain assets are becoming safe havens for global investors.

The market is sending a dangerous signal, and most investors haven't realized it yet! Recently, the three major indices have been fluctuating at high levels, and Trump's return has temporarily stabilized the market, but that doesn't mean the stock market will continue its relentless surge!

NAS COMMUNITY

The situation is very delicate right now, support funds are still working hard to prop up tech stocks and bank stocks, and the indices seem stable, but the buying power in the market is rapidly dwindling. Institutional inflows are slowing down, and profit effects are sharply declining! In other words, the market is running out of steam, and by mid to late February, it could very well lead to a real turning point storm!

Take a look at the performance of the futures market, the concern over high valuations in U.S. stocks is growing, and sluggish corporate earnings are becoming the heaviest burden on the market! Qualcomm's stock price is down due to slower market demand, Ford has lowered its profit expectations, and Skyworks has plummeted more than 20%! The struggles of these tech and manufacturing giants are shaking market confidence, making investors more uneasy about future economic growth.

A bigger risk lies in the U.S. bond market. The 10-year Treasury yield remains strong, and inflation data alongside economic resilience have significantly cooled expectations for Fed rate cuts. The market's hoped-for easing policies will not materialize in the short term! Once this illusion is shattered, funds will

NAS COMMUNITY

accelerate their exit, and tech and growth stocks will face a true correction period!

While the stock market fluctuates at high levels and the news remains uncertain, the crypto market is receiving continuous policy support, and funds are rapidly flowing into this new wealth opportunity!

U.S. President Donald Trump has vowed to adopt a more crypto-friendly regulatory stance, while Republican Senator Bill Hagerty officially introduced the "Guidance and Establishment of U.S. Stablecoin National Innovation" (GENIUS) Act on February 4, marking the beginning of a new era of clear regulation for the crypto market!

What is the core of this bill? It not only establishes a clear regulatory framework for stablecoins but also directly brings major stablecoins like Tether (USDT) and Circle (USDC) under the Federal Reserve's regulatory system. This means that the stablecoin market will be granted unprecedented legitimacy and compliance, making it a true integral part of the U.S. financial system!

NAS COMMUNITY

Why is this a major positive for the crypto market?

🔥 Strengthening the U.S. Dollar's Dominance, The legalization of stablecoins will further solidify the dollar's core position in the global financial system, promoting the dollar as the settlement currency for the global digital economy and ensuring its dominance as the world's reserve currency.

🔥 Stimulating Trillions of Dollars in Demand, With the legalization of stablecoins, the U.S. Treasury will experience a surge in capital demand, and the integration of crypto assets with traditional finance will become even closer, creating a market potential worth trillions of dollars for the entire industry!

🔥 Driving Explosive Growth in the Crypto Market, Bitwise predicts that by the end of this year, the total market cap of stablecoins will surge from the current \$227 billion to \$400 billion! This means the size of the crypto market will experience exponential growth, attracting a massive influx of global capital!

The Trump administration has clearly stated its intention to make the U.S. the "global cryptocurrency hub," and this policy direction is steadily coming to fruition! The advancement of stablecoin regulations marks the arrival of

NAS COMMUNITY

unprecedented institutional support for the entire crypto market, reigniting global investor confidence and accelerating the flow of capital into this unstoppable trend!

So, is now the time for investors to go all in on the stock market? Of course not! When market profit potential continues to decline, valuations are at historic highs, corporate earnings are weak, and policy uncertainty is rising, the only correct strategy is to prepare your capital defensively and seize certain opportunities!

Smart money has already started to retreat, and where is it flowing? The crypto market! Now, look at the performance of the crypto market, funds are still flowing in strong, and the QTPT IEO is entering its golden window before the explosion! Compared to the uncertain, institutionally weak stock market, high-quality IEO projects offer true certainty in returns and huge upside potential!

Smart money has already poured into crypto, and are you still hesitating? While everyone else struggles in the high-level fluctuations of tech stocks, the real winners have already seen 3x, 5x, or even 10x returns in the crypto market! The

NAS COMMUNITY

market doesn't wait for those who hesitate; money never sleeps, and smart investors will never miss the next big opportunity for wealth!

The trend is right in front of us, and the market is opening a once-in-a-lifetime wealth window! While the stock market is in high-level fluctuations and institutional buying is weak, the truly smart money has already shifted to the crypto market. Have you taken action yet? Don't wait until everyone else rushes in and realize that the opportunity has passed! Now is the best time to position yourself!

Opportunities always favor those who are prepared!

One of this week's two biggest market events, the Non-Farm Payroll (NFP) report has injected strong momentum into the crypto market, and we seized this trading opportunity without hesitation. AlphaStream 5.0 precisely detected the trading signal, and the moment it was confirmed, we executed the trade immediately, locking in steady profits!

Take a look at the CBF/USDT 1-minute candlestick chart. After breaking out of its consolidation range, the price surged, while MACD formed a golden cross

NAS COMMUNITY

below, a crystal-clear signal! When short-term momentum started to weaken, we sold decisively to secure profits, ensuring that our gains were safely in the bag. Some might say, “But the price went even higher later, did we miss out on more profits?” But in real investing, the most stable strategy is to take what you can confidently control. Blind greed is the most expensive mistake in the market.

Opportunities are everywhere but can you recognize and act on them?

If you see an opportunity and take it, then it’s yours. But if you don’t recognize it or hesitate to act, then that opportunity was never meant for you.

Think about TRUMP coin’s legendary 450x gain in two days, an incredible story, yes, but was that opportunity ever truly available to you? It was only for Trump’s inner circle, not for the average investor. But today’s IEO market is different, it belongs to anyone willing to take action!

So if you see the potential in the IEO market but choose not to act, that’s on you. This is why so many people remain average their whole lives, not because the world is unfair, but because they lack the awareness, courage, and decisiveness to take action.

NAS COMMUNITY

Friends, the world of investing is never short of opportunities—what's missing is the ability to recognize and seize them! The market's doors are wide open, the only question is:

Are you ready to charge in? 🚀💰

Since the launch of the AlphaStream 5.0 Crypto Oscars (300-1000%) Profit Challenge, our VIP1, VIP2, and VIP3 partners have achieved total asset returns of 359.53%, 756.62%, and 1812.76%, respectively. These figures are not exaggerated, but real results based on conservative calculations. Compared to the current weak performance of the stock market, this is undoubtedly a groundbreaking victory! This is not just the market's opportunity, it is the result of our team's collective effort. Every precise trade, every decisive execution, is what turned these numbers into reality!

But I also know that some friends, for various reasons, have not been able to follow all the trading signals in time, resulting in less than ideal returns and even some regrets. This is normal, the market is always changing rapidly. But what we can do is find more efficient and stable ways to help everyone seize opportunities more accurately. The solution? That is to wait for the official

NAS COMMUNITY

launch of AlphaStream 5.0, subscribe to automated copy trading, and make market opportunities easily accessible!

However, if you're looking for the most secure and straightforward way to profit right now, IEO projects are the most certain opportunity in the current market! We are standing at the forefront of the 2025 crypto revolution, Bitcoin halving, global market excitement, and the return of Crypto President Trump, which has driven Bitcoin to new all-time highs. The 450x gain in TRUMP coin over just two days has completely ignited the market! Global investors are pouring in, and we are right at the front of the wave!

COINFEEAI Trading Center has strategically launched high-quality IEO projects, offering the best "self-redemption" opportunity for investors who missed out on profits in the futures market! This is not only a chance for a turnaround but also a zero-risk wealth leap! If you missed the high volatility returns in the futures market, high-quality IEOs are an opportunity you cannot afford to miss! This is a chance to move from mediocrity to excellence, a window that can completely change your destiny!

NAS COMMUNITY

If you're tired of past mediocrity and want to make your future truly valuable, ensuring a more secure life, it's time to make a change! Don't worry about the future; instead, make a plan for it and take decisive action! Remember, every dark night on the road of life will eventually give way to dawn, and dawn only belongs to those who are willing to take the first step!

The real world is always full of challenges and injustices, but the mindset of the strong never complains! Complaining won't bring change; only action can shape a new future. When you become wealthy and strong, opportunities will come to you, and fairness will no longer be a luxury. The world may not be perfect, but we can make ourselves stronger. First, achieve self-redemption, then use that strength to help others, and ultimately, light up the world!

I can only do my best to grasp the pulse of the market and bring the best opportunities to you. But ultimately, the choice is always in your hands. Opportunities won't wait for anyone, and action is the key to closing the gap between people! Friends, I sincerely wish that all of you can achieve your dreams in the * community; that, to me, is the greatest happiness! Now, take that step forward! Let's together, embrace the brilliance that belongs to us! 🚀 💰**

NAS COMMUNITY

In the world of investing, the journey of self-redemption always begins with continuous learning and practice. And the true winners are always those who dare to take action and explore new opportunities!

Recently, we've focused our attention on the secrets of investing in quality IEOs, and the case of QTPT is the best proof of this wealth feast! Now, with QTPT's progress bar surpassing 500%, it not only reflects the market's overwhelming demand but also signifies that we are standing at an unprecedented wealth opportunity!

But this is not just about investment returns; it's about how, through wise decisions, you can take control of your own future! Opportunities never wait, and every market explosion is reserved for those who plan ahead and deeply understand the trends. Now, it's time to make a choice: will you be a bystander, or will you actively participate in this wealth revolution?

The QTPT IEO is not just an investment opportunity, it's a true wealth revolution! It is extremely rare, and if we miss it, we don't know when the next IEO with such enormous potential will appear.

NAS COMMUNITY

The current progress bar has surged to 500%, meaning the allocated original tokens have already brought in a 400% pure profit! And before next Saturday arrives, this figure may continue to rise, indicating that we are about to witness even more incredible returns!

If you've missed the initial opportunity in contract trading, then now, QTPT's IEO is your best chance for a comeback! This is a true wealth leap, an opportunity to completely change the trajectory of your life!

The investment market is not just a game of numbers, it's a stage for us to showcase our strength and prove ourselves! We declare our abilities to the world through profits, bringing prosperity to our families while achieving inner self-redemption! And when we gain power, we take on a greater responsibility to influence the world and help more people find the path to freedom!

This is the vision of the NAS community, not just to create wealth, but to become a beacon guiding investors in need towards the path of freedom, letting its light shine in every corner of the world!

NAS COMMUNITY

My journey is one of constant self-challenge. If it weren't for the mentors at Bridgewater Associates who guided me into the hedge fund industry, or the heartfelt help from my mentor back then, I wouldn't be where I am today. That's why, when I founded the NAS community after my retirement, I made a vow, to help more people passionate about investing achieve success and to attract more people to focus on and participate in charitable endeavors, allowing the power of love to continue to grow!

This will be my last job, until the day I can no longer continue. I am committed to passing on my knowledge, experience, and wisdom to more people, giving them the opportunity to change their fate. This is not only the mission of the NAS community, but also the original intent behind the creation of the AlphaStream 5.0 system!

Behind AlphaStream 5.0 are countless challenges, failures, and persistence, it's been shaped by the market and supported by society, leading me to where I am today! And I hope to bring this success to every person willing to learn and willing to change, helping them achieve remarkable success in the world of investment, and turning that success into a positive impact on society!

This is not just our mission, it's the very purpose of our existence!

NAS COMMUNITY

In the future, the NAS-Community Charity Fund will be officially established. We not only aim to cultivate more future investment experts but also to make wealth a bridge of love, expanding our influence into wider areas and truly making the world a better place! Although we are just a small group, we carry big dreams of changing the world!

Dear family, let us move forward together on this path toward a brighter future, achieving success, helping others, and leaving our mark on the world! Our goal is not just the accumulation of wealth, but to leave a lasting impact of wisdom, love, and strength on this world!

Every step we take is for our own growth and for helping more people in need! Let's use our actions to touch more hearts, bringing more light, hope, and warmth to this world! The opportunity is right in front of us, and now is the best time to act! 🚀 💰

With our collective effort, I am confident that we can not only achieve our personal dreams but also light the way for others, helping those still groping in

NAS COMMUNITY

the dark to find their direction. This is not just a material gain, but a spiritual and soulful elevation.

Our journey is destined to be far from smooth. It is filled with the unknown and challenges, but ultimate victory always belongs to those who bravely face difficulties and steadfastly pursue the light! True strength is not about never falling, but about rising again and again, moving forward with unwavering belief!

The era we are in is giving us unprecedented opportunities! Let us seize this moment, with even more determined steps, and walk hand in hand, spreading our love and light to every corner of the world. Our investment journey is not just about growing wealth, but also about spreading hope and faith.

Remember, we are not just individuals, but a powerful collective! We support each other and work together, making this world warmer and more filled with hope because of our existence! Through our actions and beliefs, we can impact more people, helping them see the beauty of life and its infinite possibilities!

NAS COMMUNITY

Today's Non-Farm Payroll data movement has once again added a significant profit to our Battle of King Profit Plan! Although the market volatility didn't reach the anticipated 900% fluctuation, we are still moving forward steadily. This is the true strength of AlphaStream 5.0, consistent profitability, never relying on extreme market swings, but instead creating value through precise strategies!

Opportunities are always reserved for those who are prepared. In this trading battle, our VIP3 and VIP2 partners were the first to seize the profits from market fluctuations, while VIP1 partners successfully caught up in the final sprint. This is the essence of investing, those who act decisively and dare to seize opportunities are always one step ahead, reaping the rewards of success!

Now, the next golden opportunity in the market is clearly visible, QTPT IEO is calling to us! As investors, we can't resist a "zero-risk, high-return" primary market IEO feast! This is not just a wealth celebration, but an opportunity to truly achieve an asset leap! Take that bold step, and victory will surely be yours!

Friends, in the world of investing, there is no waiting, only action! Seize the opportunity, stay proactive, and let's move together toward the shores of

NAS COMMUNITY

success! Wishing all of you a joyful and exciting weekend, and may next week's market become our new stage for brilliance! 🚀💰

Daniel Robert

Closing Commentary (α & β Strategy)

Good afternoon, community members!

I'm Daniel Robert. This morning, the Helmsman provided an in-depth analysis of the impact of the NFP data on the market, as well as the challenges currently facing the stock market. At the same time, he ignited our excitement about the massive opportunities in the crypto market. AlphaStream 5.0 flawlessly captured the post-NFP bullish momentum, once again proving the Helmsman's unmatched precision in trend analysis, truly impressive!

Remember when Bitcoin was at \$60,000, and Helmsman firmly advised everyone to take a mid-term long position targeting \$100,000? The result, a perfect hit. Then, when Bitcoin pulled back to \$90,000, Helmsman once again urged everyone to confidently increase their positions and once again, it led to solid

NAS COMMUNITY

profits. This mid-term trading logic isn't just effective in the contract market, it's especially powerful for spot investments. The key is whether you have enough capital and patience to position yourself strategically and wait for the market to reward you with substantial profits.

If you're feeling uncertain about the current market, ask yourself one simple question, look at your portfolio's P&L. Which market is actually making you money? There's your answer. Right now, the stock market is stuck in high-level consolidation, with weak institutional buying and declining profit momentum. Meanwhile, the crypto market's profit potential is exploding! From the very start of this stock market rebound, Helmsman warned everyone, high-level consolidation is the final exit window and advised reducing positions or even going fully to cash. Only those who executed this strategy decisively managed to avoid the exhausting sideways grind of the stock market. And those who shifted capital into crypto are now celebrating massive profits! Look at the VIP partners' returns, then compare them to the stock market's performance. You'll see that choosing crypto is the smartest decision right now!

More importantly, QTPT's IEO subscription has reached a frenzy, marking an unprecedented wealth opportunity, we are standing at the threshold of a true

NAS COMMUNITY

golden era! Through discussions with community members, we've noticed that some traders aren't achieving the same level of returns as our VIP partners. This is a common challenge for non-professional investors. But don't worry, Helmsman has already found the solution! Once AlphaStream 5.0 officially launches, subscribing to it will allow you to enjoy fully automated quant trading, eliminating issues like low trading efficiency and slow signal execution. But until then, IEO projects are the ultimate golden opportunity that every investor can easily capitalize on!

Folks, this isn't just another opportunity, this is a golden chance to redefine your investment future! Everything, market sentiment, capital flow, and project quality is pointing to one conclusion: QTPT will be one of the brightest IEOs of 2025. The opportunity is right in front of you, will you seize it, or let it slip away? Let's take action together and lock in this zero-risk, high-return investment feast! 🚀🔥

I know some of you are still trying to figure out the true value of this IEO and how it can become a strategic leap in your wealth matrix. But today, let me tell you, this isn't just a smart choice, it's a necessity! 🚀

NAS COMMUNITY

IEO investments, especially top-tier projects like QTPT are opening the door to a truly zero-risk, high-return opportunity. Compared to traditional contract trading, IEO investments offer unmatched advantages, they eliminate short-term market volatility risks while delivering explosive returns right from the project's early trading phase. We're not engaging in short-term speculation, we're using data and strategy to take control of the future!

Imagine this, in a highly volatile market, you have the chance to secure a 100% profit opportunity without any downside risk. Sounds too good to be true? But it's real! QTPT's IEO isn't just an opportunity for wealth acceleration, it's also the best way to enhance portfolio stability and expand your asset base! 🔥

Let's approach this from a strategic perspective, seizing this unprecedented opportunity and making QTPT's IEO a key pillar in your path to financial freedom. The decisions you make today will shape your wealth trajectory for the future. Participating in QTPT's IEO not only positions you firmly in the current market but also helps build a stronger financial foundation for the long term. Those who seize opportunities will emerge as winners, while those who hesitate will be left watching from the sidelines as wealth slips away!

NAS COMMUNITY

Believe in yourself and take that bold step forward! We are witnessing the most golden investment opportunity of 2025 and the question is, are you ready to build your own legend with us? 💰 The opportunity is right in front of you, act now and make this IEO the starting point of your journey to financial freedom! 🚀🔥

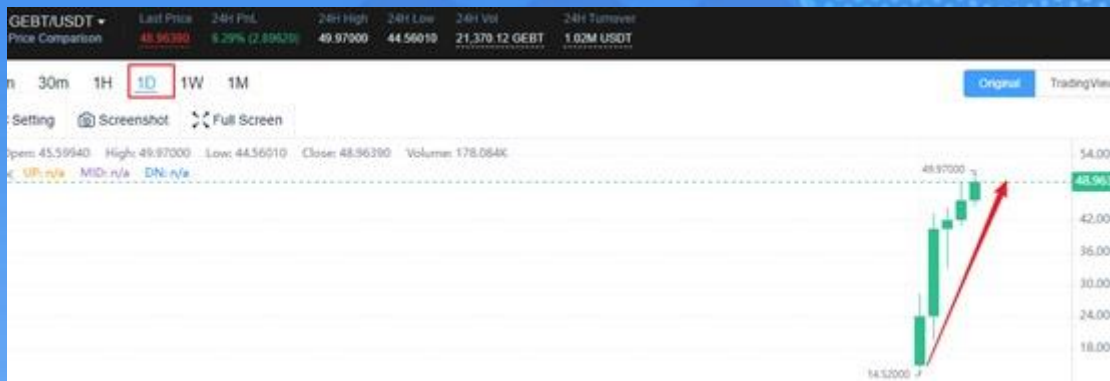

There's no denying that the VIX Fear Index has been hovering around 16, stuck in a sideways consolidation phase. Historically, whenever VIX lingers at this key level for too long, it often triggers a sharp spike. Given the high-level consolidation of the three major U.S. stock indices, this signals that any sudden market correction could lead to an inevitable VIX surge. Once fear sentiment ignites, the market will face a storm.

NAS COMMUNITY

Smart investors don't wait until the market crashes to react, they prepare in advance and hedge accordingly! Helmsman has always emphasized that "following the profits" is never wrong. Your portfolio's P&L is the market's most honest signal, it doesn't deceive, it carries no bias, and it reflects the only truth that matters.

Amid this potential market turmoil, crypto has emerged as the ultimate hedge and high-return investment choice. Take GEBT, for example, in less than a week after listing, its price skyrocketed 16x! This isn't theory, it's real, unfolding right before our eyes. Yes, TRUMP coin's 450x gain in two days feels like a legend that's nearly impossible to replicate. But remember, that was a game played within Trump's inner circle. GEBT, on the other hand, was an opportunity that we could actually participate in and profit from. I was an investor and beneficiary of GEBT myself, and while the \$150,000 minimum subscription might have made

NAS COMMUNITY

some investors miss out, looking back, it was nothing short of an investment celebration.

Now, QTPT has arrived, offering us an even clearer and more powerful choice! From project fundamentals to market enthusiasm, and now the explosive growth in IEO subscription progress, QTPT is showing potential that could surpass GEBT. This isn't just an opportunity, it's one of the most certain profit-making chances we, as investors, can seize in this era! The allocation you receive depends on subscription rules like time priority and capital priority, but as long as we strictly follow Helmsman's IEO subscription strategy, we can secure substantial profits in this market frenzy!

Opportunities always favor those who act decisively, not those who hesitate and miss out! Folks, now is not the time to sit on the sidelines. QTPT's subscription progress is accelerating, and the progress bar is soaring!

The market waits for no one, wealth belongs to those who move fast! 🚀 💰 Take action now, go all in and make sure you don't miss the most golden opportunity of the 2025 crypto market! 🔥

NAS COMMUNITY

Folks, today's crypto market is anything but calm! 🔥 Bitcoin's 5-minute candlestick chart has already given a clear signal, and this morning's NFP data release has just injected a massive boost of confidence into the crypto market! 🚀

This morning, the VIP Partners team executed a precision long strategy, securing massive profits! This trade had a 99.999% accuracy rate, making it one of the most perfect opportunities in the market. This is exactly the kind of golden

NAS COMMUNITY

signal we've been seeking, low risk, high win rate, and a perfect pulse on the market!

However, as the market entered a consolidation phase, trade signal accuracy slightly declined, which is perfectly aligned with Helmsman's ultra-disciplined trading approach. We only take the highest-certainty, highest-probability trades, never acting blindly. This is exactly why we consistently secure profits in the market, rather than being led by emotions like retail traders. 💎

If you're already on the AlphaStream 5.0 candidate list or planning to subscribe in the future, here's my strongest recommendation: When trade signal accuracy exceeds 99.99%, increase your position size! These are high-probability, high-return golden opportunities, and you cannot afford to miss them! As for lower-accuracy consolidation signals, we can reduce position size and manage risk. By doing this, we lock in every major profit opportunity while ensuring that minor fluctuations don't impact overall returns.

Folks, this isn't just a market battle, it's an adrenaline-fueled war! 🔥 The ultimate showdown between bulls and bears is unfolding, and one side is

NAS COMMUNITY

destined to fall while the other rises to dominance! Right now, both camps are amassing capital at full force, just like warlords on an ancient battlefield, recruiting soldiers, fortifying defenses, and preparing for total supremacy. ✨

The market trend is crystal clear, bulls are steadily gaining control, while those still waiting for the "perfect dip"? The market won't wait for you! BTC has already established a double bottom around the \$90,000 level, proving that support is rock solid. While short-term technical indicators still lean bearish, market consolidation is simply a necessary reset for these technical adjustments. So, what's the true turning point? When the daily MACD forms a golden cross at the bottom, the bull market's full-strength rally will be officially back in motion! 🚀

Although trading volume hasn't surged explosively yet, the market's pace remains steady and composed. This signals that Bitcoin's push toward \$150,000 isn't just a target, it's a launchpad! 💰 At this critical turning point, only investors with true vision will be able to unlock the doors to future wealth.

NAS COMMUNITY

More importantly, for high-quality IEO projects, this is the golden launch moment! In this environment, the value of IEOs isn't just amplified, it's like striking gold with half the effort! GEBT has already proven this in the market, and now, QTPT is becoming the next big focus. 🚀 If you're still hesitating, ask yourself one question, are you really willing to miss out on this wealth explosion?

So stay sharp, recognize the trend, and whether it's contract trading or IEO investing, precision is key! In every market fluctuation, we must stand firm, seize the highest-potential opportunities, and push our investments to new heights! Opportunities belong to those who take action, are you ready? 💎🔥

NAS COMMUNITY

Folks, seeing these "conservative" profit records, are you really not tempted? Not to mention, some have already skyrocketed past 1900%+ returns, they've become the main characters of this legend, writing their own success stories with excitement and pride in the investment world. For those who haven't hit their targets yet, the real question is, how do you break through? How do you achieve a true profit revolution?

🔥 Will QTPT's IEO be the key to surpassing these returns? The answer is clearly YES! 🔥

Let's look at it from another angle, GEBT's subscription winning rate hit 12.24%, and after listing, it delivered over 10x gains.

Now, QTPT's subscription progress has already surpassed 500%, meaning its initial profit potential is already locked in at 400%+ and that's before factoring in post-listing market premiums! 🚀

NAS COMMUNITY

Let's do the math, if you invest \$1 million in the subscription and secure a 20% allocation ratio, and QTPT achieves a similar post-listing surge as GEBT (10x+), then:

💰 Profit Calculation: $\$1,000,000 \times 0.20 \times 10 = \$2,000,000$ in pure profit!

🎯 Your winning asset rate of return = 1000%+

Guys, this is a real VIP3 Partner level rate of return! This is not just making money, this is a leap in wealth!

Now, looking back at the Battle of King Profit Challenge Plan, we spent several weeks working hard to achieve amazing returns. And QTPT subscription to listing, only two weeks, can achieve the same or even higher returns! This is a complete investment revolution! 📊🌟

⚠️ Key question: Which way is easier? Which way is more cost-effective?

Imagine that you don't need to trade day and night like in the futures market, you don't need to pay close attention to every K-line, and you don't need to bear

NAS COMMUNITY

the extreme volatility of the market, you just need to seize the golden window of IEO subscription, wait for the launch of QTPT, and then enjoy the pleasure of doubling your profits!

This is not just an opportunity, but also a self-redemption. This time, you can stand on the right side of the market and take your investment portfolio to a whole new level. If you haven't missed GEBT, you are already one step ahead, if you haven't taken action yet, then QTPT is your chance to make up for all your regrets!

🚩 Opportunities are only for those who act decisively! Are you ready to make QTPT your springboard for wealth? 🚀 Go all out, lock in the largest share, and start your investment legend! 🔥

This is the explosive profit opportunity we've been waiting for, folks! 🔥

NAS COMMUNITY

When the subscription progress bar easily breaks through 100%, it means that this is almost a zero-risk opportunity, and the only reasonable choice is to go all out!

What should you do? The answer is simple: push every chip to the center of the table! Seize this golden opportunity and mobilize every penny of available funds in your hands to ensure that you have the greatest advantage in this wealth feast.

For those who are still hesitating whether to suspend contract trading, think again. Even if next week's contract trading may bring +1200% profit opportunities, if you only invest 5% of the funds, the final return is not worth mentioning compared to the 800% - 1000% return rate brought by QTPT's IEO!

💡 In other words, IEO has higher returns, is more stable, and is easier, so why not go all out? If you are still not satisfied with the returns from contract trading, now is the time to increase your investment and turn to QTPT's IEO. For newcomers to contract trading, I have two suggestions for you:

NAS COMMUNITY

- 1. First take QTPT's IEO, then return to the contract trading market, because easier and more efficient profits are here!**
- 2. Send us a private message, we will tailor a personalized investment plan for you, help you maximize your profits, and seize this opportunity to make your fortune!**

Guys, as helmsman said, this is an opportunity given to us by the times. If you miss it, it will never come back! More importantly, this is a zero-risk opportunity! I have already ALL IN the subscription of QTPT, waiting for the surprises this time, and also looking forward to your changes!

We are standing at a critical turning point. Seize it and you will start a new journey and usher in a huge financial leap! Opportunities belong to those who dare to act. Let us welcome the arrival of success together!

🔥 It's weekend time, guys! 🔥

No matter how intense the market is this week, weekend is the best time to reflect and adjust. Relax and enrich yourself, but also pay attention to market

NAS COMMUNITY

dynamics and prepare for next week's investment. Success is never accidental, it belongs to those who continue to learn, adapt, and evolve!

I hope you enjoy spending time with your family and friends this weekend, and come away with new inspiration and strength ready for next week's battle!

See you on Monday, guys! Next week we will continue to sprint towards greater success and gains! 🚀 🔥 💰
